

INVEST IN AN **INSIDER**.

Boost the value of your verdict.

We serve as an alternative outside the formal discovery process to harvest the information you need

Our research team provides the outlet for harvesting witnesses knowledgeable and fitting to your case narrative. Using our proven witness-research techniques, former employees or relevant patrons of your defendant can connect with you in order to share their story.

Their story, and revealing the truth, can tip the scales in your favor to produce the verdict your client deserves.
